## About Amson

Amson Interconnect is a company specialising in the production and designing of a broad range of mobile Power, AV Connectivity cables, adaptors, chargers and lithium ion battery solutions for mobility/IT digital external devices.

Amson is committed to find new, faster, cost effective and sustainable solutions that go beyond the time-tested conventional products in mobility & AV/IT industry.

**Product philosophy:** Amson has a strong reputation for the quality. It has been achieved through strict and careful quality control of our manufacturing process which has resulted in earning a reputation of a brand with the lowest defect rates in the industry.

**Vision:**

To be the best company that provides innovative solutions in Li-ion Battery, Power and AV-IT Connectivity products.

**Mission:**

To provide reliable and high performing mobile Power & Connectivity secondary products at competitive prices and keep developing product range with new technologically advanced solutions.

## Presenting Nextech: Amson's flagship brand for Power & AV-IT connectivity products.

**Premium Quality:** Nextech continues to be the B2B industry standard for connectivity performance, reliability and value. With our 27 years of working experience, we know which raw materials add to the functionality of the final product, and which simply add to the price. We constantly strive to stay ahead and improve our products as newer technology surfaces in the industry.

### QC CERTIFICATIONS

### Chipest partners for our products.

**Lower Pricing: Amson** Being an Indian SME, it allows us to invest more in the product while keeping our prices competitive. With 27 years of product innovation and marketing experience under our belt, we can provide top quality products at much better pricing than global retail brands.

**Superior Customer Service:** Our direct contact with our customers is one of our most valuable aspects of consumer sales. We have a designated team of resources handling customer queries and grievances, if any. Our head office is based out of Delhi and we have ensured that a direct Company Helpline Number is available to all our customers in addition to the email address, which is functioning on all working days, 10AM to 7PM

Lithium ion is the future for energy storage for mankind! There is a huge demand of lithium-ion batteries in various forms across industries like electric vehicles, outdoor display, security & surveillance, portable digital devices etc. Amson has an edge in this segment with 20+ years' experience in battery business, sourcing cells with strict quality checking and having design and manufacturing of BMS in house and are creating various battery banks with different voltages & currents to meet the requirements of the consumer! We have paved our way into the Li-ion Battery Industry thru collaboration and by earning the trust of our partners & customers.
